

Brilliance Sealer/Finish

Hard Floor Care

Benefits:

- Low and High Speed Sealer/Finish!!
- One step sealing system for Vinyl
- Extra high gloss
- Provides the perfect finish for **Pafu Base Seal**, on Terrazzo and other Stone Surfaces
- Quick drying and extremely durable
- Deep, clear finish
- Non yellowing- resists discolouration
- Excellent levelling properties
- Slip Resistant under AS/NZS 4663:2002

For Use On:

Vinyl	Terrazzo
Vinyl Sheeting	Tiles
Slate	Granite

Brilliance Sealer/Finish is a new generation high gloss polish that provides an amazing “wet look” finish for most modern surfaces.

Groundbreaking research into multi phase pure acrylic polymers has lead to the development of a product that works in both high and low speed buffing applications. This means that two products are no longer required, ultimately simplifying stock control and eliminating under performance.

The latest polymer technology from around the globe ensures that **Brilliance** offers superior durability, ensuring longevity for an ultra high gloss finish is not sacrificed. Time is money– **Brilliance** is an ultra fast drying product resulting in a substantial reduction in the amount of time waiting for the Sealer/Finish to dry.

Brilliance also has excellent leveling characteristics which eliminate time wasted in “working” the Sealer/Finish, consequently achieving an even finish without the extra effort. Simplicity means less mistakes. Used as a One Step Sealing System for Vinyl **Brilliance** offers a Sealer/Finish with amazing results that does not require a base coat.

Terrazzo and stone often have varying compositions which require a super tough base coat. For Terazzo and other Stone surfaces, **Brilliance** offers the perfect finish for **Pafu Base Seal**. Find out now why **Brilliance** is simply Brilliant!!!!
