

# Zest

## Total Bathroom Cleaner

### Benefits:

- Pleasant New Perfume
- Leaves surfaces sparkling clean
- Kills odour causing bacteria at the source
- Long lasting deodourisation
- Uses biodegradable detergents

For Bathrooms and Washrooms you want to sparkle\* - **Zest** represents a change in the way bathrooms are cleaned. **Zest** utilises a new generation thickener for improved 'cling' and wetting properties. The 3 in 1 action of **Zest** rapidly cleans, sanitises and deodourises in the one efficient operation.

**Zest** effectively removes soap scum, body fats and oils, hard water carbonate deposits, rust and urine stains, dirt and common soils, algae and mildew. **Zest** is safe on all surfaces from ceramics to porcelain enamels, plastics and formica, glass and chrome. Do not apply to painted surfaces as some discolourisation may occur.

**Zest** uses an innovative blend of mild organic acids and biodegradable detergents to rapidly break down soap scum, body fats, oils and soils on contact. The high foaming detergents suspend the soils in solution once removed from the surface.

Persistent mal odours in bathrooms and washrooms come from difficult to remove soils and bacteria penetrated into old, porous ceramic tiles. **Zest** offers a deeply penetrating cleaning action to remove soils and anti-bacterial action to neutralise mal odours at the source.

**Directions:** Invert the special applicator and apply under the rim of the bowl or urinal allowing the product to run into the bowl or urinal. Leave for a minimum of 10 minutes before flushing the toilet. For heavily stained or encrusted toilets leave for 10 minutes and scrub using a brush.

**CAUTION:** Being acidic in nature **Zest** should not be used on surfaces that may be reactive to acids such as Aluminum, terrazzo, concrete, marble etc. **WARNING: DO NOT STORE NEAR CHLORINE OR BLEACH. NEVER MIX WITH CHLORINE OR BLEACH.**

**Technical Advice:** For further information refer to Whiteley's **How To Clean** information for **Bathrooms** located in the Industrial section of Whiteley's web-site, [www.whiteley.com.au](http://www.whiteley.com.au)
