

Superior Cleaning Performance With innovative products

Insist on **Whiteley Industrial** when ordering your professional cleaning products

Professional cleaning is a vital function in commercial, retail, institutional and hospital facilities. Whiteley Industrial has spent years working with industry professionals to develop innovative professional cleaning products that simplify the cleaning process, increase cleaning efficiency and maintain performance standards in these areas.

Whiteley Industrial offers:

- Superior cleaning performance - unrivalled in quality and reliability.
- Integrated systems for covering most cleaning applications.
- Product consistency - for summer and winter.
- Decreased labour costs - increased productivity.

- Decreased inventory and training costs.
- Quick response technical support - highly trained staff.

Whiteley Industrial's Colour Coded System offers cleaning professionals a simplified integrated system of complete-cleaning products unrivalled in quality and reliability.

This range has been developed to streamline and maintain performance standards and increase cleaning efficiency for professional cleaners. It also offers a versatile and user-friendly approach through the use of quick-colour-identification between the products, bottles, labelling and on-site reference wall charts.
