Insist on Whiteley Medical for your Endoscopy needs

Hand Hygiene is recognised as the single most important feature of an effective Infection Prevention & Control program. Effective hand hygiene activity has shown to reduce Healthcare Associated Infections (HAIs).

BACTOL® ALCOHOL GEL
Bactol® Alcohol Gel Waterless Hand Cleanser contains 70% v/v alcohol and uses natural emollients to replace the skin’s lipids which are removed by alcohol. Bactol® Alcohol Gel is ideal for use in Endoscopy units as it maintains skin integrity leaving hands hygienic, soft and replenished. AUST R 155397

DERMALUX FOR EVERYDAY USE
Dermalux for Everyday Use is an ultra-mild soap for hand and body washing. It is specifically designed to retain skin integrity, leaving the skin feeling soft and refreshed. Dermalux for Everyday Use is ideal for people who wash their hands frequently.

SURFACE CLEANING DETERGENTS AND DISINFECTANTS

VIRACLEAN®
Australia’s No. 1 Hospital Grade Disinfectant! Viraclean® is a major development in advanced cleaning and hospital-grade disinfecting technology. Viraclean® passes TGA Option B and kills a broad range of other bacteria including VRE, MRSA, Hepatitis B Virus, Herpes Simplex Virus and Influenza Virus. Viraclean® simplifies complex cleaning and disinfection procedures. AUST R 69000

MICROL
Microl is designed for rinsing and/or drying of medical instruments and surfaces before sterilisation. Microl is 70% Ethanol and filtered to 0.2 microns for fast and effective sanitisation. ARTG No: 127945

INSTRUMAX® PINK
Instrumax® Pink is specially formulated and the only approved Instrument Grade Disinfectant (Low Level) within Australia. Instrumax® Pink helps reduce the risk of cross infection and is suitable for use in cleaning and disinfecting Scope Buddies. ARTG No: 1355-44

V-WIPES
Clean and disinfect surfaces with V-Wipes hospital grade disinfectant wipes! V-Wipes unique pH neutral formula and high quality apertured fabric allow for fast, effective cleaning and disinfection of all surfaces within the healthcare environment. AUST L 160901

Cleaning and disinfection of surfaces is of paramount importance to reducing HAI’s within the healthcare environment. Whiteley Medical’s innovative and internationally recognised surface disinfectants are proven to kill a broad range of pathogenic bacteria and are suitable for use in Endoscopy.
**Matrix®**

Matrix® is a patented formulation of surfactants specifically designed for removing conventional biological soils, bacterial biofilms and other microorganisms on medical devices.

**OPAL®**

OPAL® is an Ortho-Phthalaldehyde (OPA) based high level disinfectant that features a reuse period up to twice the length of competitors.* OPAL® is suitable for both manual disinfection of semi-critical medical devices and Automated Reprocessing of Endoscopes and Accessories. With the same contact time and temperature for manual disinfection and Automated Reprocessing, OPAL® provides fast turnaround time for endoscopes. OPAL® Test Strips also available for testing MRC of OPAL®. ARTG No: 206575.

* When the product is decanted from the bottle.

**OPAL® TEST STRIPS**

OPAL® Test Strips are chemical indicators for use in determining whether the concentration of Ortho-Phthalaldehyde (OPA), the active ingredient in OPAL®, is above or below the Minimum Recommended Concentration (MRC) of 0.35%. It is recommended the OPAL® solution be tested before each disinfection cycle to ensure the concentration of OPA is above the MRC. ARTG No: 206283.

**matrix®**

The world’s leading Biofilm Remover! Matrix® removes conventional biological soils and bacterial biofilms on medical devices. Matrix® is specifically intended for use on endoscopes (rigid and flexible), ultrasound probes, complex medical devices and all other medical instruments. ARTG No: 125529

- Matrix® breaks the surface adhesion causing the biofilm to ‘peel-back’ and collapse on itself
- Matrix® dissolves the complex carbohydrates - EPS (Exo Poly Saccharide)
- Matrix® impacts 100% of viable bacteria within the biofilm
- Matrix® has demonstrated cleaning efficacy - institute testing and simulated soil tests have proven Matrix® to be the world’s most effective medical device cleaner.

**matrix® Wipes**

Matrix® Wipes are biofilm removing detergent wipes for pre-cleaning endoscopes and other medical devices. Matrix® Wipes contain Matrix® biofilm removing solution - a patented formulation of surfactants specifically designed for removing biological soils and biofilms. ARTG No: 125529.

**matrix® mint**

Matrix® Mint removes conventional biological soils and bacterial biofilms on medical devices. Matrix® Mint is specifically intended for use on endoscopes (rigid and flexible), orthopedic instruments, complex medical devices and all other medical instruments. ARTG No: 125529

Scientific studies on reusable flexible endoscopes showed that 100% of patient ready endoscopes had biofilm present in their air/water channels.

**matrix® Wipes**

Matrix® Wipes are biofilm removing detergent wipes for pre-cleaning endoscopes and other medical devices. Matrix® Wipes contain Matrix® biofilm removing solution - a patented formulation of surfactants specifically designed for removing biological soils and biofilms. ARTG No: 125529.

*When the product is decanted from the bottle.*
Thorough pre-cleaning is an essential practice for any effective cleaning and disinfection procedure.

**AIDAL® PLUS**
Aidal® Plus is a stable, odour suppressed, 2% glutaraldehyde based High Level Disinfectant and sterilant suitable for use in Endoscopy Units for the Sterilisation and High Level Disinfection of Critical and Semi Critical Medical Devices. ARTG No: 135545

**AIDAL® PLUS TEST STRIPS**
Aidal® Plus Test Strips are a chemical indicator for use in determining whether the concentration of Glutaraldehyde, the active ingredient in Aidal® Plus High-Level Disinfectant and Sterilant is above or below the Minimum Recommended Concentration (MRC) of 1.5% Glutaraldehyde. ARTG No: 201558

**MEDIZYME**
Medizyme is a multi enzyme cleaner which rapidly solubilises and removes blood and other protein deposits from Medical Devices. Ideal for manual and ultrasonic cleaning. ARTG No: 125529
