

GLOKLEEN

CLEANER - MAINTAINER

**BENEFITS:**

- Increases gloss
- Improves durability & wear
- Removes scratches
- Increases slip resistance
- Improves black heel mark resistance

GLOKLEEN is a multipurpose neutral cleaner-maintainer for use on sealed and unsealed floors. GLOKLEEN combines the detergency technology of Tempo HD and a blend of waxes and polishes to replenish and repair the surface of floor sealers damaged during daily wear. The blend of waxes and polishes used in GLOKLEEN facilitate easy burnishing, increase gloss and increase slip resistance. GLOKLEEN may also be used on unsealed floors to provide soil and stain resistance, black heel mark resistance and improve cleaning performance. GLOKLEEN may be used to improve the cleaning and maintenance of tarkett, rubber floors and specialised anti-slip flooring.

GLOKLEEN is designed to be used in conjunction with Tempo HD (or Citron neutral detergent) in a weekly maintenance schedule.

DIRECTIONS FOR USE:

Mop & Buckets: 17mL/L of water

Autoscrubber: 17mL/L of water

Spray Buffing: 100mL/L of water

Sealed Floors: Apply GLOKLEEN to the floor by mop and bucket or an autoscrubber at the correct dilution to clean and maintain floor. GLOKLEEN should be used once or twice a week to restore and rejuvenate sealed floors.

Unsealed Floors: GLOKLEEN can be used to improve the cleaning and appearance of unsealed floors such as tarkett and antislip rubber. After cleaning with a neutral detergent spray buff GLOKLEEN at a 1:10 (100mL/L) dilution using a red pad. When used regularly GLOKLEEN will impart soil and heel mark resistance.

SAFETY DATA:

For further information refer to the Material Safety Data Sheet (MSDS) located on the Whiteley Industrial website: www.whiteley.com.au

HEALTH AND SAFETY STATEMENT:

There is no way of predicting an individual's response to cleaning or disinfecting products. All cleaning and disinfecting products have potential to cause skin and other irritation in susceptible individuals. Direct physical contact with the skin should be avoided. If irritation does occur when using this product or any other cleaning/disinfecting solution then the individual should be removed from direct contact with the solution until a satisfactory safe working environment for that individual is determined.

ENVIRONMENTAL STATEMENT:

Whiteley Industrial manufactures products that comply with Australian and International environmental policies. Whiteley Industrial aims to ensure that every product is 100% biodegradable, whilst achieving optimal performance and benefit to customers. All Whiteley Industrial products are supplied in 100% recyclable containers.

Whiteley Industrial and its staff are fully committed to ensuring that our Australian environment and those international environs in which our products are used are enhanced by the use of technology, and that these environments are preserved for the enjoyment of future generations.
