

Sanitol™

ANTIBACTERIAL HAND SANITISER

Contains Ethanol 70% v/v

Sanitol is a uniquely formulated antibacterial hand sanitiser designed to prevent the spread of harmful germs. Sanitol's rapidly acting formula kills 99.99% of germs - protecting you against a range of potentially unsafe micro-organisms. It is an effective component of a hand and personal hygiene program and its scientifically advanced formula is gentle on all skin types.

Key benefits:

- ✓ Kills 99.99% of germs
- ✓ Contains natural emollients to replenish the skin's lipids – leaves hands feeling soft, smooth & revitalised.
- ✓ Natural skin conditioners & light pleasant fragrance - Ideal for all ages to use.
- ✓ A refreshing gel that kills germs without the need for water.

Sanitol is ideal for use where an alcohol based hand rub is required.
