

Water Hardness Test Kit
Product Code: 303004
\$150+GST

HACH Chloride Test Strips (40 strips)
Product Code: 303022
\$204³⁷+GST
*Suitable for testing Chloride levels between 30-600ppm.

Conductivity Meter
Product Code: 303025
\$296+GST

CSSD Water Quality Requirements for Compliance AS 5369:2023

Water testing for CSSD

As a safety requirement, healthcare organisations are required to regularly test and monitor their water, in accordance with AS 5369:2023.

This includes monthly water hardness, conductivity and chloride testing, and annual endotoxin testing.

Whiteley offers water testing kits and endotoxin compliance testing, to help your endoscopy and sterilising departments achieve compliance.

Whiteley also offers practical compliance support. We can train your staff and provide ongoing support, to make sure you follow industry best practice.

AS 5369:2023 WATER QUALITY USED FOR REPROCESSING OF REUSABLE MEDICAL DEVICES		
Substance	Water sample	Maximum concentration levels
Water Hardness	Supply Water	150mg/L
Chloride**	Supply Water	120mg/L
Conductivity	Final Rinse Water	<30µs/cm

Annual endotoxin testing for compliance with AS 5369:2023			
Final Rinse Water Endotoxin Testing*	Endotoxin 0.25 EU/mL	Annual Endotoxin Testing Fee Product Code: 303024	\$200 + GST

*Microbiological Compliance testing is also required monthly and should be conducted with your normal microbiology test provider.

**Contact your Whiteley™ Sales Representative for further information when testing below 20mg/L.
